TRINITY COLLEGE

Princeton, N. J.

March 1, 1914

Dr. J. H. Johnson, M.D.

100 North 5th Street, Philadelphia, Pa.

Dear Sir:

Very truly yours,

Wm. H. Johnson, M.D.
Trinity College, Hartford, Conn.

TRINITY COLLEGE AND ST. HILDA'S COLLEGE

THE purpose of this brief announcement is to give to those desiring it, information about Trinity College and about St. Hilda's the Residence for its Women Students. As an introduction it seems fitting to enumerate the component parts of the University of Toronto, showing the position held therein by Trinity College.

The Entrance Looking West

The University of Toronto.

THE Faculty of Arts in the University of Toronto is composed of four Arts Colleges. Besides Trinity College, these are University College, Victoria College, and St. Michael's College.

There are also in the University two Theological Colleges which are not also Arts Colleges, namely, Knox College and Wycliffe College.

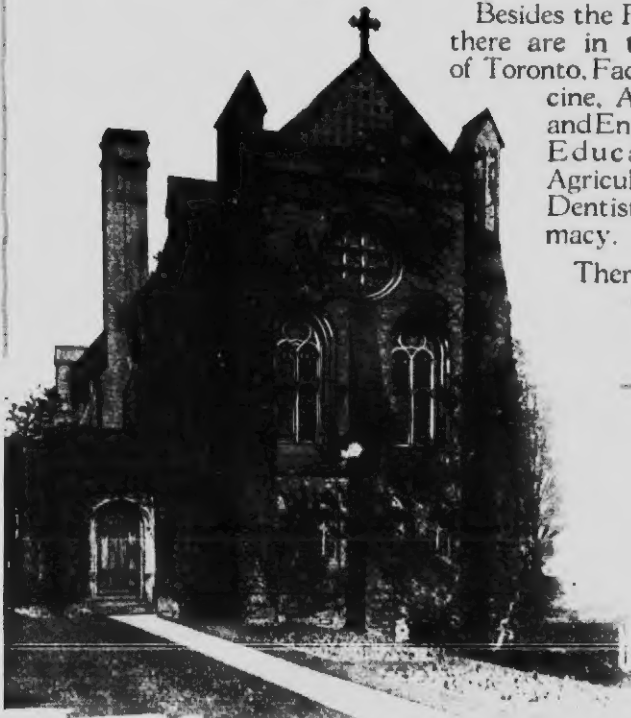

"Trinity" and "Victoria" are each of them both Theological and Arts Colleges. Therefore, Students of either of these Colleges can proceed therein to the degree of Bachelor of Arts or of Bachelor of Divinity, or to both of these degrees, without needing to enroll in any other College.

No undergraduate can proceed to the degree of Bachelor of Arts in the University of Toronto without enrolling in one of the four Arts Colleges, Trinity, Victoria, St. Michael's, or University College.

Besides *enrolment* in one of these Colleges, *registration* in the University is necessary. For the former, application should be made to the College selected, and for the latter to the University Registrar.

Besides the Faculty of Arts there are in the University of Toronto, Faculties of Medicine, Applied Science and Engineering, Law, Education, Music, Agriculture, Forestry, Dentistry, and Pharmacy.

There is no Faculty of Divinity or

The Chapel

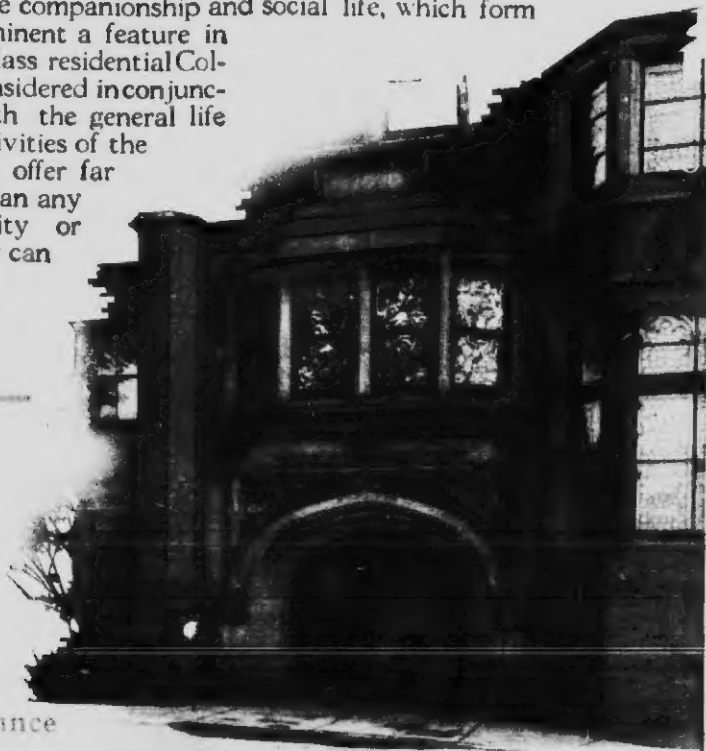

Theology in the University of Toronto itself, but each of the two federated Universities of Trinity College and Victoria College maintains a Faculty of Divinity and confers the degrees of Bachelor of Divinity and Doctor of Divinity.

Trinity College.

AN outstanding feature of Trinity College, and one for which it has been famous for more than half a century, is its Residence system.

Nearly all the Students of Trinity live in the College Buildings, where they enjoy the privileges and benefits of Collegiate Residence. The educational value of residence, no less than its social advantages, commends this feature very highly to those who know by experience how necessary Collegiate Residence is to the best University education. The history of Oxford, of Cambridge, and of Trinity College, Dublin, affords striking illustration of this, and the same is true also of the newer Universities of the Old Land and of this Continent.

The companionship and social life, which form so prominent a feature in a first-class residential College, considered in conjunction with the general life and activities of the College, offer far more than any Fraternity or Sorority can do to meet

West Entrance

these acknowledged needs. There is, however, nothing to prevent any Student of a residential College from belonging also to a Fraternity or a Sorority if so desired.

Residence.

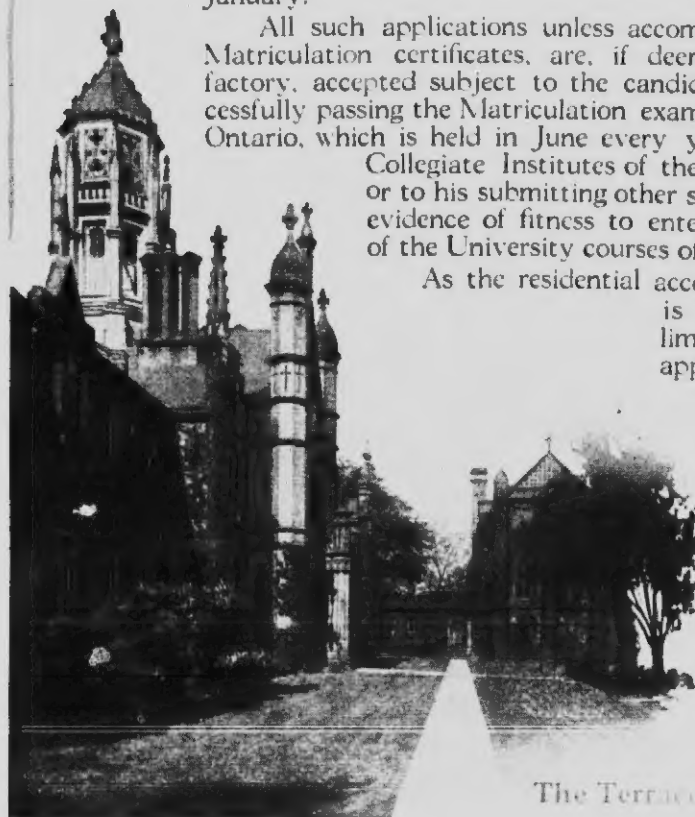

THE residences of Trinity College are four in number, two for men and two for women Students. Trinity College and Trinity House are the residences for men, while St. Hilda's College and St. Hilda's Lodge are the residences for women.

Applications for residence may be addressed to the Rev. Dr. Macklem, Trinity College, Toronto; or to Professor A. H. Young, Dean of Residence, Trinity College; or to Miss Cartwright, Principal of St. Hilda's College.

The College year begins at the end of September, and applications are received at any time after the preceding January.

All such applications unless accompanied by Matriculation certificates, are, if deemed satisfactory, accepted subject to the candidate's successfully passing the Matriculation examination of Ontario, which is held in June every year in the Collegiate Institutes of the Province, or to his submitting other satisfactory evidence of fitness to enter upon one of the University courses of study.

As the residential accomodation is strictly limited, early application is desirable.

The Terrace Looking East

The names of all candidates are placed on the waiting list in the order in which they are received and accepted, and after the results of the Matriculation examination are announced towards the end of August, rooms are assigned in that order to successful candidates.

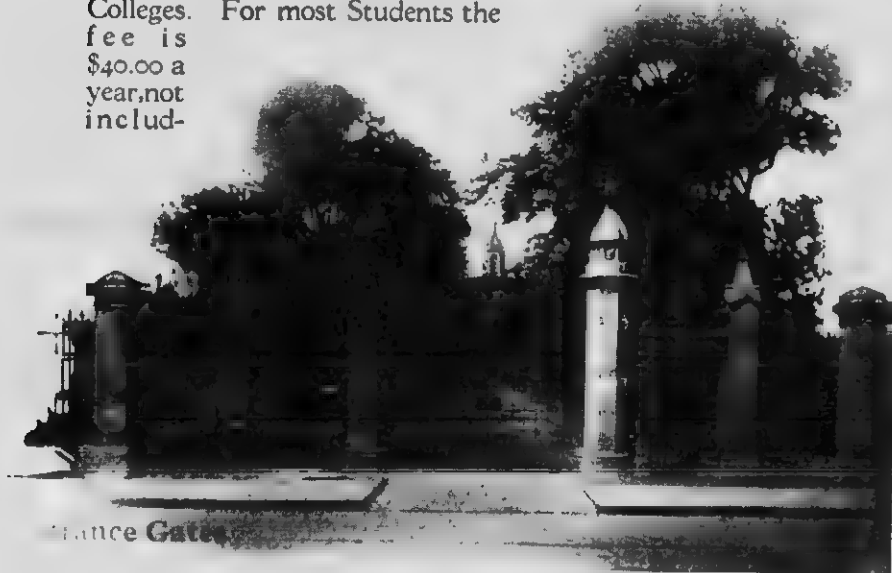

Names may be withdrawn at any time up to the first day of September by simply notifying the College in writing of such withdrawal. Therefore those who are uncertain about their plans may find it to their advantage to enroll their names early in the year, even if they should find it necessary to withdraw them later on; otherwise they might be unable to obtain accomodation when needed.

Scholarships.

TRINITY College offers a number of very valuable Scholarships and Bursaries, about which full information will be given on request. The Scholarships offered by the University of Toronto also are tenable in Trinity College, in addition to those offered by the College itself. Successful candidates may hold two Scholarships, namely one College and one University Scholarship. In certain rare cases, as many as three Scholarships may be held by the fortunate winner of them.

Fees for Art Students.

THE tuition fee in the Faculty of Arts is the same in all the Colleges. For most Students the fee is \$40.00 a year, not includ-

Entrance Gate

ing small laboratory charges for Students pursuing certain Science courses. Particulars will be found in the Arts Calendar, which may be had on application.

The fees for Residence for men Students vary according to the accomodation selected, the rental of rooms ranging from about \$20. a year for a small single room, to something over \$50. for a study with connecting bedroom. These larger rooms may be shared by two students, if desired. The charge for heating is a separate item, as is also that for *extra* gas. The board fees for the year are \$140. or allowing for discount \$126. net. For the Divinity year the fees are less, as the year is shorter. Full particulars may be obtained from the Provost.

The fees applicable to the Women's Residences will be found in the later pages of this announcement, under the heading of St. Hilda's College.

Student Organizations.

THE Students' Council, the Athletic Association, the Literary Institute, the Inter-College Debating Union, the Glee Club, with a number of other Student Organizations, all help to maintain the esprit de corps of the Students, by bringing their individual powers and abilities into effective use in co-operation with their fellow students. The eminently successful Science Club and equally successful Theological Society also deserve special mention.

Grounds and Buildings.

THE buildings of Trinity College are of great architectural beauty, and are excellently suited to their purpose. They stand in the midst of Trinity Park, which comprises over thirty acres, with ample Playing fields for various kinds,

of sport. The football field, tennis courts, and hockey rinks are much prized by the Students, who find it a great advantage to have these so conveniently situated. Indoor basketball is played in the Gymnasium through the Winter months.

Athletics.

A VERY large proportion of the Students of Trinity College take an active part in the various sports; and high honours are carried off by the Students every year in the College, Inter-Collegiate, and University sports. A Field Day is held in the Autumn and a Steeple Chase, after which the Athletic Supper is given, when the prizes are presented amidst much enthusiasm and to the accompaniment of music and speeches.

This is always regarded as one of the most enjoyable events of the year.

The Episkopon Supper is another notable and useful Institution of the College. The motto of "Father Episkopon" is "Notandi sunt tibi mores", and he never fails to live up

to it. Every graduate of Trinity College has many interesting reminiscences to tell about Father Episkopon.

These events with the Inter-Collegiate Debates, the Oratorical Contest, the Japanese Sale at St. Hilda's, the Public Lectures on Saturday afternoons, the social gatherings in the rooms of Dons and Students, with various other interests, make up one side of College Life which is of real value and importance in helping to shape the manners and mould the character of the young people.

Another side of the life of the College finds its proper centre in the Lecture-rooms and the Library, as well as in the rooms of the Professors when they read essays and exercises with the Students, or try in other ways to give them the largest possible measure of individual help and encouragement in their studies.

Yet another and most important aspect of College Life is represented by the beautiful Chapel, where prayer is said daily, when all members of the College are expected to be present. On Sunday mornings Divine Service in the College Chapel is attended by all the Students who belong to the Church of England, while others are free to attend the Churches of their respective denominations.

Success of Trinity Students.

THE high standing taken by Trinity College Students in the annual examinations of the University of Toronto is most gratifying. In these examinations, when the Students of all the Colleges are brought into competition with one another, the honours, prizes, and scholarships won by Trinity men and women is very large indeed in proportion to their numbers—a tribute to the excellent system of the College, and to the good work done by staff and students.

As an illustration of this the following extract is quoted (in condensed form) from one of the Toronto papers of 27th May, last, after the results of the University examinations for the year had been announced:—

"The Trinity College graduating class in Arts numbers thirty-four. The chief honours of the final examinations go to Messrs. S. Childs and D. A. Keys, and to the Misses Marguerite Clench and Helen Macgregor. Mr. Childs, who has had charge of a Mission and has taken a practical interest in the Literary Institute, the Glee Club, Foot-ball, and the Students' Council of the University, wins the College prize for the highest first-class honours in Philosophy, the Jubilee

Approach to Church

Scholarship, and the Governor's gold medal. Mr. Keys, a former head boy of Upper Canada College, wins two medals, the Governor-General's silver medal and the James Loudon gold medal in Physics, with the prize in the same subject. Miss Clench, who was trained in the Collegiate Institute at St. Catharines, wins the Governor-General's bronze medal for the headship of St. Hilda's College, and the College prize for the highest first class honours in modern languages, in which she stood second in the whole University list. Miss Macgregor, who was a former head girl of the Bishop Strachan School, stands first in first class honours in English and History with the Moderns option, and wins the College prize in that subject. Mr. J. Bertram Collip, M.A., has passed his examinations and completed his Thesis for the degree of Ph.D. The degree of M.A. has been won by Miss F. H. Cook, '14, and by Mr. A. K. Griffin, '14, who has been awarded the Rhodes Scholarship. Mr. G. M. Matheson, B.A., has passed his first year's examinations in Medicine, and Messrs H. N. Farmer, B.A., and G. B. Jackson, B.A., have been called to the Ontario Bar. Mr. Jackson and Mr. G. W. Morley, son of the Reverend Canon Morley, have won the degree of LL.B."

This remarkable record of successful achievement is due very largely to the careful individual attention which Trinity College always seeks to give its Students, and also to the comparatively small classes which make this individual work possible. The Rhodes Scholarship, which finds a place in the above list, is one of the most coveted honours which the University has to bestow, and quite the most valuable, bringing to the successful candidate the sum of over \$4000. to enable him to pursue a course or study in the University of Oxford

The Ministry of the Church.

THE preceding pages are devoted mainly to the Faculty of Arts. We pass on now to speak of the Faculty of Divinity and the courses of study open to those who wish to prepare themselves for the Ministry of the Church of England.

Trinity College offers to candidates for ordination to the Ministry of the Church a selection of courses so wide and varied that one or other of them will be found to meet the needs of every kind of case and of all circumstances.

The L.Th. Course, which is open to Students who have not passed the Arts Matriculation examination, covers four years and leads to the College degree of Licentiate in Theology and to Letters Testimonial for Holy Orders. The first two years are devoted mainly to preparatory work and to certain subjects of the Arts course, and the last two years

to Divinity subjects exclusively. In this course elementary Latin and Greek are taught when needed. Hebrew is an optional subject.

A more complete course, which is open to Matriculated Students, leads first to

the degree of Bachelor of Arts and afterwards to the Divinity Testament of Trinity College and to Letters Testamental for Holy Orders. This double course, which requires either five or six years according to circumstances, provides an excellent and thorough training, and is heartily recommended as a very complete preparation for ordination.

An extra year added to the foregoing course leads to the degree of Bachelor of Divinity. This combination, which gives the Student the degrees of B.A. and B.D., is specially recommended to those who can afford the necessary time.

Yet another course, which leads to the B.D. without the B.A. degree, consists of two years of Arts followed at once by two years of Divinity, and later by the final B.D. examination, which may be taken after ordination.

Outside of these several degree courses, special courses of two or three years may be arranged to suit special circumstances, upon request of a Bishop who has accepted the candidate for ordination or in whose Diocese the candidate, if already ordained, is working.

The foregoing enumeration is intended merely to indicate as briefly as possible the variety of courses offered to Students in Divinity. For fuller particulars anyone who is interested should write to "The Provost, Trinity College, Toronto," stating fully his own circumstances and asking to be advised as to the course most suitable for him to undertake.

Bursaries and Exhibitions

TO enable students to take a complete course in Divinity, when they are intellectually equipped to do so, but have not the necessary funds, there are suitable Bursaries and Divinity Exhibitions. For information about these, application may be made to the Provost.

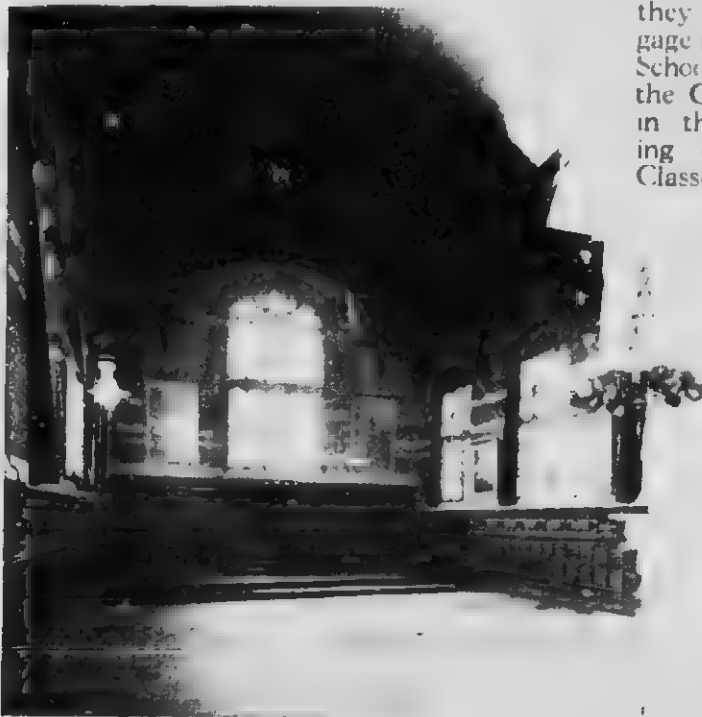

Opportunities of Practical Work

NOT only do students in Divinity receive in Trinity College a thorough education in all the most necessary branches of Theological study, but they are afforded opportunity also of valuable practical work throughout their course.

During the summer months some of the students are placed in charge of Missions in Ontario or in the West, and some are engaged as assistants to the Rectors of Parishes for pastoral work under their personal guidance and supervision.

During the College year the students have opportunity from time to time of conducting services in parishes not too far distant from Toronto to be reached on Saturday

afternoon; or they may engage in Sunday School work in the City, and in the teaching of Bible Classes.

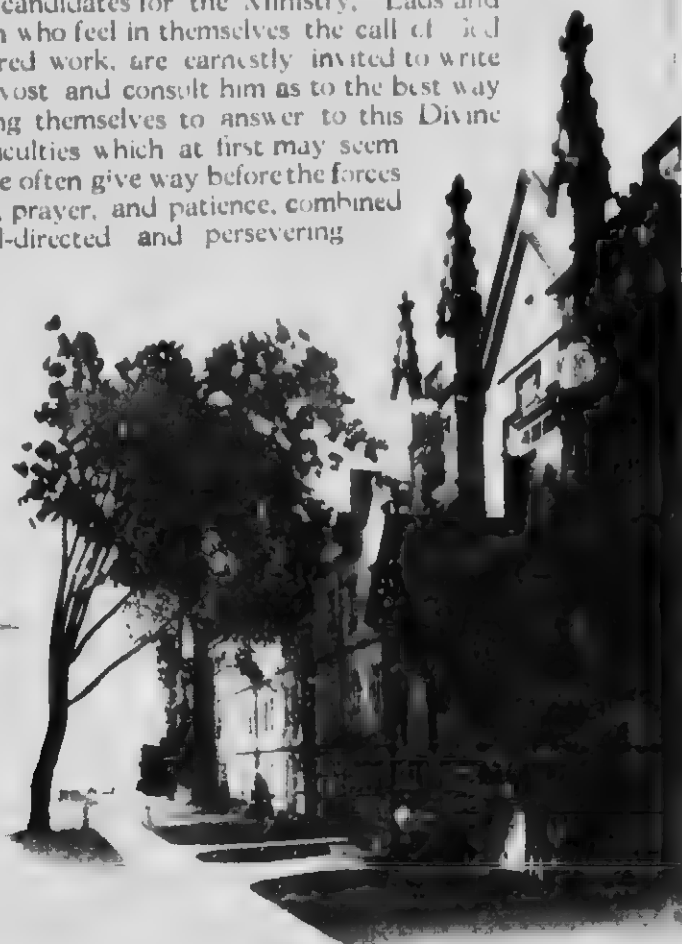

These and other forms of practical training are a very great benefit to men who are seeking to prepare themselves to undertake the sole charge of Missions and Parishes

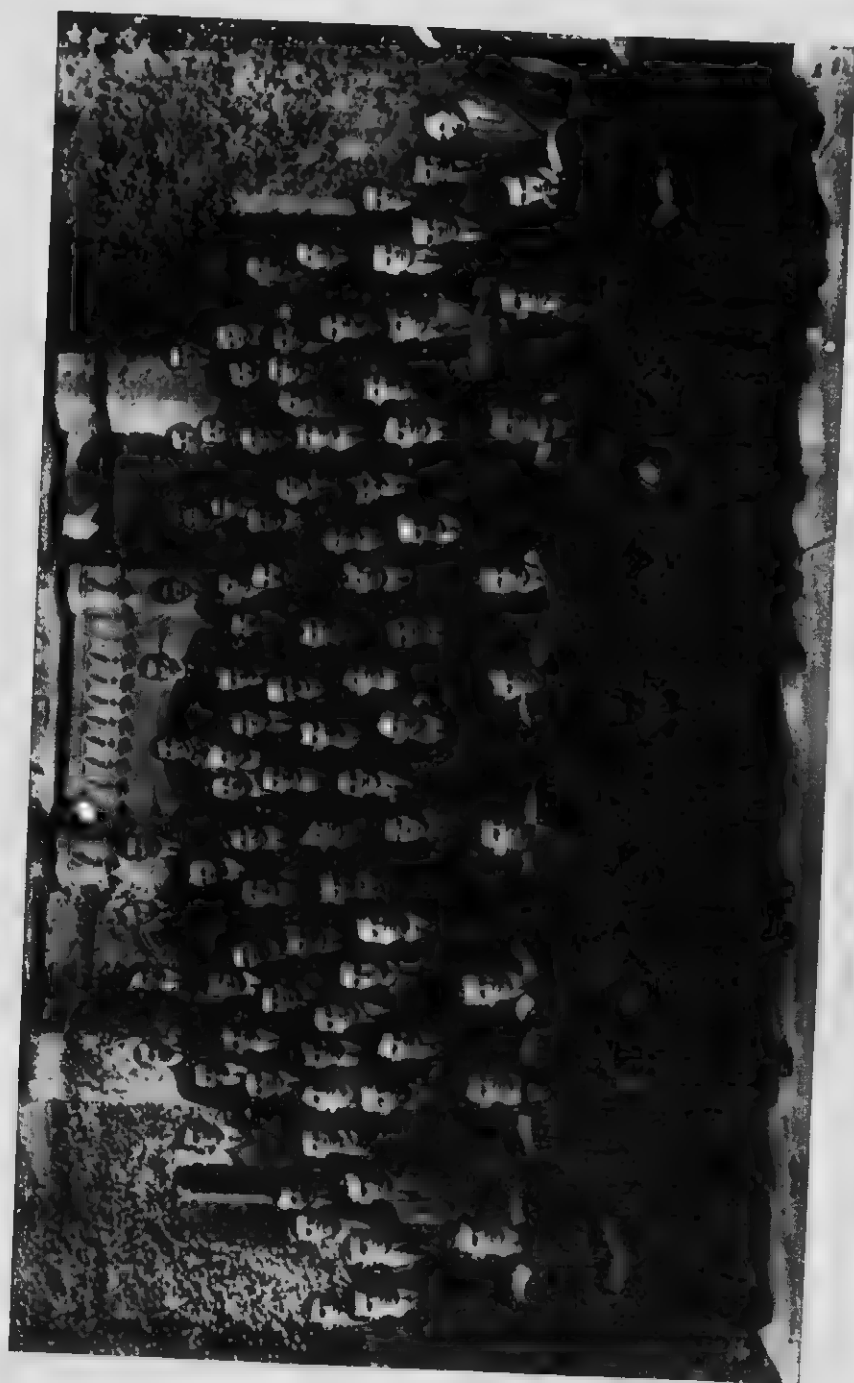

Curriculum in Divinity

THE Curricula of the several courses in Divinity are published annually in the Year Book of Trinity College, a copy of which may be obtained from the Provost.

The Church's Need

THE Church in Canada is in great need of very many more candidates for the Ministry. Lads and young men who feel in themselves the call of God to this sacred work, are earnestly invited to write to the Provost and consult him as to the best way of preparing themselves to answer to this Divine call. Difficulties which at first may seem insuperable often give way before the forces of counsel, prayer, and patience, combined with well-directed and persevering effort.

ST. HILDA'S COLLEGE

RESIDENCE FOR WOMEN STUDENTS

Principal - - - Miss Cartwright, B.A.

House Assistant - - - Miss Cotterill

St. Hilda's Lodge, in charge of - Miss Strachan

St. Hilda's Annex, in charge of
Miss C. Kammerer, M.A.

President of Alumnae Association

Miss G. Morley, M.A.

Representative on University Senate,

Miss C. Laing, M.A.

ST. Hilda's is the Collegiate Residence for Women Students of the University of Toronto who are enrolled in Trinity College in the Faculty of Arts.

Its members therefore enjoy all the educational advantages of Trinity College and of the University of Toronto.

St. Hilda's College

as well as the special benefits of residence in their own College with its excellent traditions and strong esprit de corps.

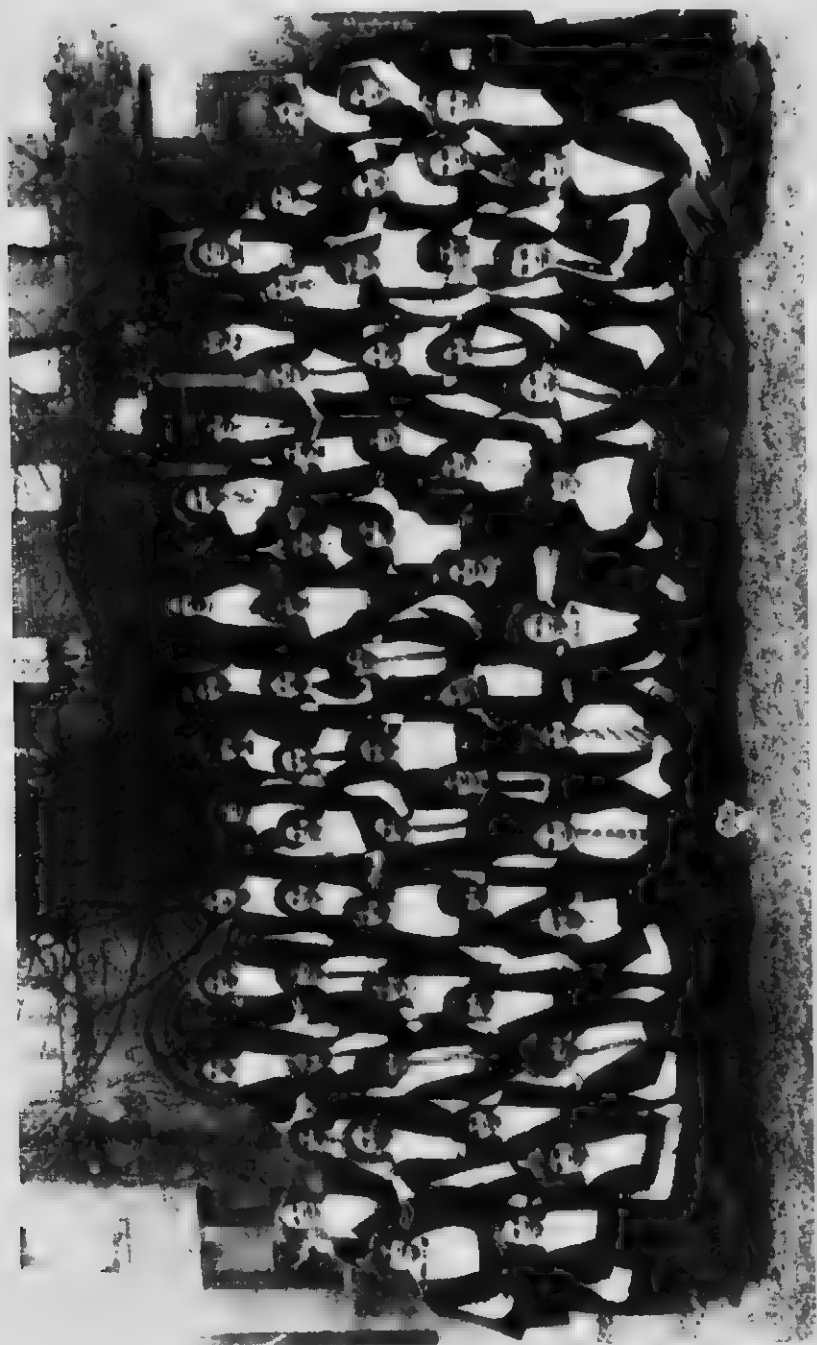

Success of Students

THE excellence of the provision made for them is reflected in the notable successes achieved every year in the University examinations by Students of St. Hilda's. Another and equally gratifying evidence of the thoroughly good education enjoyed by the young ladies of St. Hilda's is to be found in the high positions attained by many of them in educational work and other professional careers.

Higher Education for Women

MANY others who have pursued the several courses and taken their degrees without any intention of putting these to practical use as a help towards earning a living, are exercising a beneficent influence in their respective spheres of life, thus affording constant and striking illustration of the desirability of higher education for women for its own sake (apart altogether from professional considerations), and for the sake of the power it confers on those who pursue it.

Description of Buildings

FACING the South the main building of St. Hilda's College is bright, well ventilated, and full of sunshine. The Verandahs provide pleasant corners for use in the Summer evenings and Autumn afternoons. The internal arrangements of the house are most comfortable and include steam heating, electric lighting, and all modern conveniences. On the ground floor, besides the Principal's quarters, are the drawing-room, the common-room where all the Students meet together for social intercourse and where they may receive their friends, the dining-room, and the library. These rooms are all provided with open fire-places, and afford ample space for large gatherings, several of the rooms being connected with one another by large folding doors.

The first and second floors are given up entirely to the Students' private rooms. Open fire-places add to the cheerfulness of some of these rooms, and all of them present a home-like appearance, besides being suggestive of the distinctive quality, always so attractive, of a College.

St. Hilda's Lodge adjoins the main building on the East, while close by on the other side is an overflow house known as the Annex.

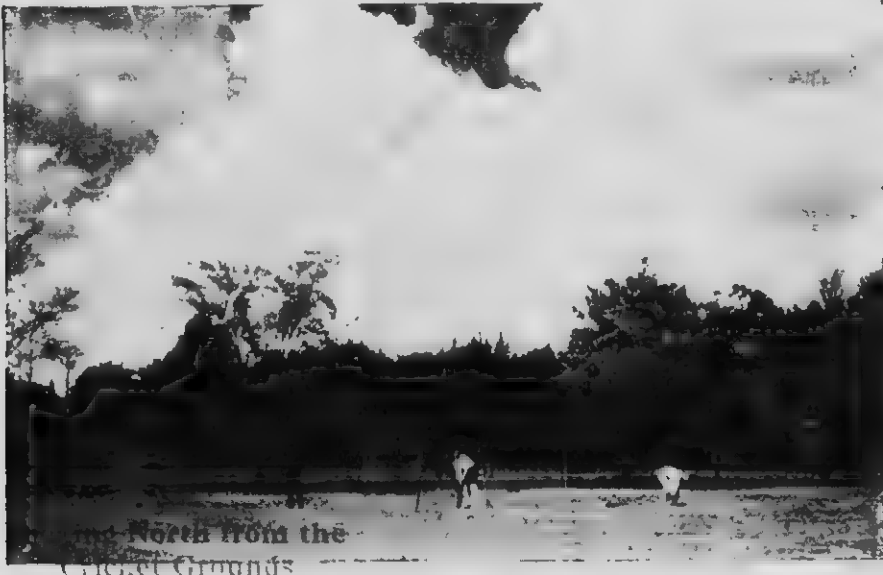

St. Hilda's Lodge

The Chapel

THE main building contains a small Chapel where the residents meet daily for morning and evening prayers. For the Sunday morning Services, however, the Students of St. Hilda's attend the Chapel of Trinity College, so that the whole College, including both sexes, may meet together for public worship on the Lord's Day.

The Principal and her Colleagues

THE Principal of St. Hilda's College, Miss Cartwright, B.A., whose name and work are known throughout the Dominion, is ably assisted in the administration of the College by Miss Strachan, who is in charge of St. Hilda's Lodge, and by Miss C. Kammerer, M.A., who takes charge of the Annex when necessary. These ladies, either personally, or by their deputies, also act as chaperons when the Students attend concerts in the city, or social events in Trinity College or elsewhere. In other respects, the undergraduates, being no longer school girls but responsible young women, regulate their own time and engagements to suit themselves, having due regard to the general discipline of the house and to the friendly guidance and advice of the Principal and her colleagues.

North from the
Cricket Grounds

Games and Exercise

IT is the policy of the Management to encourage physical exercise as a means both of supplying the most healthy form of recreation and of developing the corporate life of the College.

Tennis, hockey, and basket-ball, are indulged in to a considerable extent and are not found to interfere in any way with the proper business of the College life.

Literary Society and Clubs

THE Students have formed among themselves various Societies of the kind usually deemed to be of advantage as adjuncts to a College course. Occupying a leading position among these is the Literary Society, in connection with which debates are held, readings given, and essays read.

The debates are a most important feature, as the College discussions form a sort of preparation for the Inter-Collegiate meetings, at which champions chosen from the different Colleges in the debating union meet in friendly contest.

St. Hilda's has proved itself well able to hold its own these discussions and to carry off a generous share of the honours. The same is true of hockey, tennis and basket-ball, in all of which the success of St. Hildians is conspicuous.

The Bishop's Throne
in the Chapel

The Students publish an excellent magazine known as *St. Hilda's Chronicle*, in the editing of which they enjoy the able co-operation of many graduates of the College.

The Alumnae Association

SOME years ago the graduates of St. Hilda's formed themselves into an Alumnae Association, which holds an annual meeting in the College and contributes in many ways to its well-being. The intense loyalty and enthusiasm of the Alumnae afford the best possible proof of their sense of the benefits they have received from the College. This Association takes part also from time to time in the general meetings of the Alumnae of the University of Toronto, in the membership of which other Colleges besides St. Hilda's are included.

Length of the Course

THE courses of instruction leading to the degree of Bachelor of Arts are ordinarily four years in length, but those who enter with senior matriculation standing and take the General Course may shorten the period to three years. It is generally recognized, however, that the entire period of four years is none too long for deriving the full

Oak Screen and Gate

benefits to be gained from the system. The Academic Year begins in the last week of September, and ends about the third week of May, with a short vacation at Christmas and a few days at Easter. The academic year is divided into two terms, the Michaelmas term which ends at Christmas, and the Easter term covering the rest of the year. For details of the courses of study, reference should be made to the Calendar in Arts of the University of Toronto, copies of which will be sent on request.

Fees for Board and Lodging

THE minimum sum required to cover fees for tuition, examination, board and lodging, is \$241 net, made up as follows:—Tuition fee \$40, (not including laboratory work), University examination fee \$10, University Library fee \$2, Board and Lodging \$210 gross, with discount of 10% for payment terminally in advance, making this item \$189 net.

In addition to the annual fees, every resident Student of St. Hilda's pays an entrance fee of \$12 in the first year, to cover expenses of bedding and furniture.

All these fees, except the University examination and Library fees, are payable to the Bursar of St. Hilda's College.

Professors' Garden

There are also several Student Organizations, the fees of which are for the convenience of the Students, usually paid to the College Bursar, these amounting in the total to less than \$5.00 a year.

Scholarships

THERE are many valuable Scholarships open for competition annually at the Ontario Matriculation Examination. Full particulars of these Scholarships will be sent on application being made to the Provost of Trinity College

Application for Rooms

APPLICATION for rooms in the Residence may be made at any time after the 1st January for the Academic year beginning at the end of the following September. To avoid disappointment, early application is recommended. This may be addressed to the Principal of St. Hilda's, or to the Provost of Trinity College. As no application can be accepted till the Academic standing of the applicant has been considered by Trinity College and the University of Toronto, it will generally save time if the enquiry is addressed to the Provost of Trinity College in the first instance. Later, all accepted applications are sent in to the Principal of St. Hilda's for the assignment of rooms.
